Her dam Freevale Crazy for Love to Bronze Medal & NSW Sieger Lindendale Strike Force to VA MBE Hasenway Wild Knight & Gold Medal & Aust. Sieger Dorsten Monte Cito.

Here we have an absolutely anatomically beautifully constructed female who both in stance and movement is the epitome of what we would all like to own I am sure. Whilst she has no line breeding she carries a pedigree full of proven producers and comes herself from a good family and I have absolutely no doubt that she will produce very well when bred from.

She has had an outstanding show career having won her class in the last two Nationals as well as taking out the Reserve Bitch at this years National.

She comes from a very successful kennel where, although they have imported dogs themselves, still continue to source bloodlines compatible to theirs from other breeders and that is why they will continue their success and not breed themselves into a corner and I congratulate them on their transition from a very successful all breeds career into the speciality arena.

She is an above medium size, medium strong, slightly elongated bitch of still very good proportions. Lovely feminine head and expression with good eye colour. She stands with a high wither, firm back into well moulded croup. Very good fore and hindquarter angulation with very good top and underline and forechest development. The sires lines have been discussed in the Exc.Merit 2 bitch. This bitch has been line bred heavily to Druann Fantasia a Tacko daughter from Druann Bewitched a Lesko Wildsteiger Land daughter.

Whilst she had not yet been bred her full litter sister has produced the 2nd baby puppy and 3rd intermediate dog today. She mirrors her sire in type and his willingness and heart to perform even to the high stepping in front until she settles. Whilst she did not have an outstanding career as a youngster which was typical of the Caprio stock, when she reached Junior she started to mature from the rangy youngster and even more so since she has reached the open class where she consistently finishes in the top 5.

She is virtually full German breeding and I am sure when she is bred from will produce quality puppies and through her breeding retain the beautiful type she is.

I have these two bitches together as they are absolutely of the same sire type.

Bronack has had a very good career from baby through to the open class and again I am sure will produce exceptionally well when bred from.

What a beautifully bred bitch and again congratulations tot he owners for purchasing her. She had stock today which finished 4th and 6th in puppy and another who finished 8th in intermediate. Typical of youngsters from German breeding they still have a lot of developing to do but they will certainly make it the bitch finishing 4th was a very impressive youngster. This is a breed show and whilst she may not be as impressive to look at as some in front of her she is a very good bitch with an excellent pedigree to breed from.

She contains in her lines many proven producing animals and I am sure if the owners research her lines they will be able to breed her well to produce top progeny.

She herself is a bitch that has competed well in the ring and is a bitch that at times does not do the best of individuals but as she settles she has no problem in moving up through the class.

She is a large, stretched bitch of still very good proportions, with a very good head and expression and dark eye. Stands with level wither, firm back and well laid croup. Care needs to be taken with the ligamentation, hock and elbow connections with this male, however he comes from a very good family and stands in the type of his father, grandfather and great grandfather, therefore he will bring progeny with very good anatomy.

3rd ***CH.FREEVALE CAUSIN CHAOS AZ**

Cayos Noriswand/Eigenschaft Regal Flame

3 ½ years. 65.5cm. Very large, strong, substantial slightly elongated well constructed, well coloured male of very good type. Expressive, masculine head. Strong powerful neck. High wither, firm back. Well moulded croup, just slightly short. Very fore and hindquarter angulation. Very good length of foreleg. Very good fore and just slightly short underchest. Ideally the tail set should be a little lower. Standing not quite correct in front he steps a little narrow at rear. Good firmness of the hocks joints. The elbows should be a little tighter. He shows very good fore reach and powerful hind quarter drive in movement whilst the ligamentation remains firm and dry.

He impressed today with his convincing performance in this open class. He has a young progeny group that has had some good placings this weekend. He is a very impressive young Cayos son possessing an excellent motherline. Regal Flame is a former State Breed Reserve Siegerin and has progeny that have performed well on a National scale. Therefore Causin Chaos has good anatomy and family behind him and being a high quality son of Cayos, a former NSW State Sieger he offers an alternative for breeders.

Very good hindquarter angulation. Good fore and pronounced underchest. Good length of foreleg. Stands correct in front. He steps narrow at rear. The elbows should be tighter. His progeny are still very young but he possesses very good lines, anatomy, colour and pigment and therefore this elevates him into the higher group today. Progeny have performed well this weekend. He is linebred to some of Australia's best producing lines which also give a good predictability of family type. He should bring soundness, type and good size.

- 6th ***ZAMB vd SANSTEIN KUSTE (GMY)aZ**
 Quantum Fiemereck/Wiggi Bauno Fer-Land
- 3 years 66cm. Very large, strong and substantial, masculine, black and red gold dog of pleasing type.. Very good head, with desired dark mask. Very good ear carriage. Strong neck that should be a little longer. High wither, firm back, slightly short steep croup. The tail is set slightly high. Very good fore and hindquarter angulation. Good fore and underchest development. Good length foreleg. Stands correct in front. Stepping slightly narrow at rear, correct at front with good hock connections, however the elbows are a little loose. In movement displays good ground cover, with a good sequence of steps. He maintains a good witherline whilst walking and gaiting.
- Zamb has not been resident long enough to assess progeny, therefore today's judgement is based on bloodline and his anatomy. He is line bred on Ursus Batu and Karly Arminius both excellent dogs to have in a pedigree. They represent strength, type and good proportions, however care will need to be taken with size. There are deep hindquarters in this dog's father line so consideration should be given to this aspect. He is certainly a well bred male with quality animals right through his pedigree.
- 7th ***SUNHAZE OUTRAGIOUS AZ**
 Cayos Noriswand/Sunhaze Lyca
- 3 years. 65cm. Large, strong, elongated male of pleasing type. Very good head and expression. The eye should be a fraction darker. Well placed ears. Good neck. He has the tendency to heavy step a little after prolonged gaiting, but has successfully made the transition into the open class.

9th ***AMBALA TOBLARONE AZ**

Cayos Noriswand/Ambala All That Jazz

2years 3 months. 64cm. Well above medium size, medium strong, slightly elongated. black and red tan male of good type. Good head and expression. Ideally neck should be just a little longer. High wither. Firm back. Well moulded, slightly short croup. The upper arm should be longer, and is just slightly forward placed. Slightly deep hindquarter angulation. Very good fore and underchest. Good length of foreleg. The pasterns are a little steep. Stands not quite correct in front. Stepping correct at front and rear. In movement he shows good drive, with a slight restriction in the reach. He maintains good overline during gaiting. He should show a little more muscle tone.

A well constructed son of Cayos and Excellent Select female and previous State Siegerin, Ambala All That Jazz. He is a little lacking in the bone strength required for a top male, however displays very good characteristics from the motherline particularly.

SIRES PROGENY - STATE BREED SHOWS

ANDACHT I AM LEGEND

This is the group of Andacht I Am Legend by Cayos Noriswand and Turnberry Super Impose. The sire is present. The group consists of 3 males and 2 females.

The animals presented are all very young so it is difficult to make a judgement of what this sire will produce in the future. However, it is good to see a group presented. They appear to have good bone strength at this stage, very good colour with very good eye colour which is very pleasing, the topline are very good at this stage.

DELLAHUND KIC ATINALONG

The group from Dellahund Kic Atinalong, the sire is present. The group consists of 2 males and 4 females. The animals are generally of good construction with quite good topline. There is good definition between sex characteristics of the males and females. We note the head strength is good, the eye colour mixed, the ears are set slightly low on the skull. Care needs to be taken with the length and lay of the upper arm. They all stand correct in front, the hindquarters are good and the hock strength very good. They have a good sequence of steps and display good energy, however some of the animals have a restriction in the forehead reach and just need to carry the witherline a little higher. The progeny are not in the type of the sire, therefore one would expect that puppies from this dog will favour the mother line. A good group.

CAYOS NORISWAND

This is the group of Cayos Noriswand, NSW State Sieger 2008. The group consists of 6 males and 9 females

They show very good type, very good definition between the sexes, The bone strength is strong to medium. The topline are all very good, with good ligamentation. There is a slight tendency for some of the animals to be a little short in the underchest. The hindquarter angulations are very good. Some animals appear to have a slight restriction in the length of upper arm.

The sequence of steps is very good, they tend to step well. In some exhibits the reach should be just a little more free. Praiseworthy is the fact that the animals show a good desire to run so they are willing to work in the ring and note also that the coats on the animals are very good as is the colour.

FREEVALE SWEET LACHLAN

This is the group of Freevale Sweet Lachlan, sire is present, 1 male and 4 females and it is noted that the eldest is a junior.

All of the animals presented here are of well above the average construction, very good proportions, stretched but very good, they have very good head strength and certainly the male is very strong and the bitches are feminine and have very good expression. All the animals seem to have a willingness to work.

We note that when the animals are standing the necks have a tendency to be a little erect however when moving the carriage is normal.

The upper arms could be a little better angled some are a little steep where the shoulder however is well placed, they have good topline and very good underlines. They stand correct in front however there is a tendency for the animals to be a little loose in the hock joints. Animals exhibit a very good sequence of step however some have a little restriction in the reach.

All judges here are very pleased with the group they are all very sire typical animals

FREMONT TOO HOT TOHANDLE

This is the group of Fremont Too Hot To Handle with 2 males and 2 females, sire is not present, the group is only representative of two litters.

We have four sables and what you see is animals of very good construction and with the exception of the last animal they all have good heads and underjaws, good length of neck, very good topline with a tendency to a short underchest. The forehand is generally very good however the upper arm could be just a little longer. We note that the animals have very good hindquarters to just slightly deep.

They stand correct in front, hock joints are very good. The coats are of very good quality with very good markings.

They cover the ground well in movement with a great willingness to work.

It is only a small representation but it is a very good group and we look forward to seeing a larger group in the future.

FREEVALE CAUSIN CAYOS

Sire is present and we have 4 bitches and 1 male and we note that the eldest is only 11 months so it is too early to tell.

What we see here today are animals of very good type, very good colour, balanced angulations but it is too early to really comment. However it is good to see the young dog able to present a group.

SCHNEEBERG FIRE STORM

Sire present - only have 3 representatives so it is difficult to make a decision however we note that the animals are of very good quality, very good head, very well constructed, show good sequence of step in movement.

However it is not possible to make further comments and we look forward to seeing a bigger group next year.

BREEDERS GROUP

FREEVALE

4 Males 2 Females from 5 sires and 5 dams

The quality of this group is excellent. They are excellent in type, possess very good anatomical construction, with good definition between male and female. The kennel is to be congratulated for its use of a variance of sires and dams that has contributed to a group that is uniform in type and anatomy.

ANDACHT

2 Males 5 Females from 5 sires and 6 dams

The difference between the two groups is probably the mixture and the overall quality of all the animals is not quite up to the standard of the Freevale Group but a very beautiful group. Once again a group that has demonstrated good variance of sires and dams that have combined to give animals that are uniform in type and colour.

VLADIMIR

3 Females 2 Males from 4 sires and 2 dams

A very good uniformity of type very good difference of sex characteristics. All animals are of above average quality. An outstanding group from Vladimir.

German Shepherd Dog League of NSW Australia

Saturday 20th and Sunday 21st November 2010

My thanks to the committee of the league for the invitation to judge at the Spring Fair Show and the hospitality shown to me over the two days judging at Erskine Park. A splendid venue with large grass rings equal to the best anywhere. Thanks also to my two efficient ring stewards, namely Mary Matuschka my stenographer and Hetty Choy for keeping the ring proceedings running smoothly. To Jim and Ann MacKenzie too for being such great hosts during my stay.

I found the overall quality of the females higher than the males. That is not a slight on the males, indeed several males were of very high calibre, but the depth of quality in the female classes was exceptional. Especially the Open Bitch class. This was an excellent class throughout. My co-judge Herr Wolfgang Lauber and myself both fully agreed that most would not look out of place if shown in Germany.

On the minus side the angle of the croup in most exhibits needed to be equal to the correctness of the forehand assembly. A point in which several exhibits excelled. Incorrect depth of the underline in several females was a cause for concern. Uniformity of type however was excellent with the afore said Open bitch class, and Junior bitch class in particular being exceptional.

I thank the breeders and exhibitors for the opportunity to assess some really quality specimens of our breed from down under, and congratulate them on reaching such high standards in their breeding programmes.

Unless critiqued otherwise, all exhibits presented were of the colour black and tan, were self assured and of sound character, no dental problems were evident and all males entire.
