Very good ground covering movement with very good reach and drive ideally she could carry her wither a little higher during movement which is attributed to somewhat by the handler who should cease from trying to run too fast with this bitch as it detracts not enhances her.

### ***Open Bitch - J.Pike***

21 bitches were entered with 3 scratched.

When judging the Open Bitch class the following was considered:

- *anatomical construction* – first and foremost this is the most important factor when judging any show. A good structure ensures the efficient working ability of the GSD;
- *show results* – consideration was given to the shows conducted by the League in NSW over the past 12 months; and
- *progeny exhibited at the show* - a bitch, in its lifetime, does not have the ability to produce progeny in the same way that a male can due to limited number of matings. The importance for a bitch to exhibit progeny and be awarded the highest grading is not the highest priority. One would expect that after being awarded a high placing, consideration to mating and producing progeny to be presented at future SBE's would be a requirement.

Within the open bitch class 7 of the animals (39%) exhibited had produced progeny that were entered in the show. Just because they had progeny does not necessarily mean they are worthy of the highest grading. It was pleasing to note that all of the open bitches have both parents breed surveyed, with the exception of one animal.

The class overall exhibited good strength, substance, pigment and colour. Eye colour on the whole was very good and the firmness of topline was pleasing. Areas of concern were strength of underjaw, length and lay of the upper arm, length of underchest and some stood not quite correct when viewed from the front.

The Siegerin and Excellent Merit 1, Karmay Chakira (Noell x Aldaina Unna) is a substantial, feminine bitch of excellent type, shown in full coat. She has a very pleasing and well angled forequarter which was particularly evident with her free forehand reach, especially during the fast gait, where she maintains a high wither. Her length of stride was long, flowing and effortless. Her show record is particularly impressive with 5 first places from 5 shows. At 3 years 4 months I would expect that she will be mated and I will watch with interest her progeny.

The Reserve Siegerin and Excellent Merit 2, Kuirau Takeira (Kwint x K. Jubilation) at 5 years 9 months was called out in first place. This bitch is not exaggerated in anyway and cannot be overlooked for her clean flowing lines. She also produced two class winning animals (x Toby) at this show. During the gaing exercise it became evident that she has restrictions in her reach which is due to the length and lay of the upper arm. In comparison to the eventual Siegerin her length of stride is somewhat shorter and her ground coverage not as effective. Over the past 12 months this bitch has been consistently highly placed on the pegs with 3 x second, 2 x third, 1 x fifth and 1 x seventh.

The Excellent Merit 3, Castastar Alexie (Zony x Astasia Cinnamon) is 3 years 6 months and a slightly more compact bitch than the first two, however, she particularly impressed with her desire to work and her clean over lines. I believe she is resident in Queensland and I note that she was highly placed at the National in 2014.

The Excellent Merit 4, Java v Santamar (Paer x Nordblicks Lycka), 4 years 4 months has been sparingly shown but has produced well to Fremont Too Hot to Handle and Gerry Schacher. A different style of bitch to the first three but one that carries her wither high and excels in movement. She produced the class winning puppy dog at this show and the third and fifth placed intermediate bitches.

The balance of the Open Class were of excellent quality of which all owners and breeders should be extremely proud.

The following sires were represented in the Open Bitch class Kwint Juerikstall 4, Schneeberg Fire Storm 3, Vegas Dongmiran 2 and the following one each, Zamp Thermidos, Lashadas Xcellento, Dellahund Kic Atinalong, Paer Hasenborn, Zamb Sansteinkuste, Freevale Nothing Too Serious, Zony Gerstenberg, Noell Suentelstein and Tais Haus Alfabo

**Open Dog - J.Pike**

The open dog class was judged on anatomical construction and progeny exhibited at the show. It is necessary that for a dog to become Sieger or to be awarded an Excellent Merit they must display excellent anatomical construction and exhibit a progeny group of far above average quality at the show. The fact that a group can be presented does not necessarily ensure that the highest grading will be achieved. As was the case with the bitch class, show results were considered and for the males, statistics from the HD/ED Control schemes.

The Sieger showed great enthusiasm in the ring and at all stages he maintained an excellent over-line. His progeny results included 4 first placings at this show. His hip and elbow statistics to date have been enviable and the first batch of progeny are currently being presented through the survey system.

The Reserve Sieger was presented in very good condition of which I commend the owners and presented a progeny group that is sire typical.

The progeny group report will elaborate further on the groups presented by these dogs.

10 dogs were entered with 4 scratched. All open dogs were from different sires and this was obvious from the mix of type exhibited in this class.

**64 cm** – Large well coloured, well pigmented, masculine sable dog of excellent type. Very good head and expression with dark eyes. Good length of neck, high wither, firm back, croup of very good length and lay. His forequarter is good, however the upper arm could be a bit longer. Very good fore and underchest development with good hindquarters. He stands correct in front and steps correct going, slightly close coming. In movement he shows very good reach and drive however would like to see him maintain his wither line a little higher.

#### **Minor and Puppy Classes – J Pike**

The puppy classes can sometimes prove to be difficult classes to judge depending on each stage of development. The minor puppy and puppy bitch classes were particularly lovely classes to judge.

My minor puppy bitch winner was from the Sieger, Toby v Plassenburg, and was the oldest in the class. A very beautiful young bitch who will easily move into the next class. For her age she excelled displaying very good reach and drive with a very good topline. Overall the class displayed some shortness in underchests, the length and lay of upper arms could be better, length of necks and strength of underjaws was somewhat concerning.

The minor puppy dog class, as is usually the case, was at mixed stages of development. Only two or three of dogs showed any semblance of type to each other. Some were very upright in pasterns. My eventual winner was a rich red and black masculine puppy from Homer von Amasis that shows much promise.

Puppy bitch class was a particularly enjoyable class to judge with my first three placegetters from the Sieger. These three young bitches were typey to each other and all excelled in movement. The winner of the class was an absolute stand out from beginning to end and I noted that she was from a mother that has produced well for the kennel.

Six dogs were presented in my puppy dog class all of very different stages of development. At the initial call out the Homer son was called out first for his overall style and masculinity. However, as the class was worked he had the tendency to fall on the forehand and carried his head too low. My eventual winner was from Fremont Too Hot to Handle x Java von Santamar. This puppy, for me was at the most correct stage of development for the class. The placings in this class ended with three groups of two animals of similar type placed together.

Coming from outside of New South Wales I found that the pool of sires on offer here are more varied compared to Victoria and South Australia in particular. In those states the influence of Orrinshir Elton John, Kwint Juerikstall and Esko Haus Zydgato are very concentrated and I have noted that these lines are appearing to compliment each other. I noted a more correct length of tail in the classes that I judged, particularly compared to SA & Victoria where they can be somewhat long, generally very good masking and very good pigment, very good overlines and colour. Improvement in areas such as forequarter, strength of underjaws, tightness of feet, and length of underchest must be addressed. The pasterns varied from class to class with some very upright and some quite soft.

I believe that given the number of sires on offer in your state some care needs to be taken

in regard to selection of breeding partners as the overall type in most classes was very mixed. The open bitch class of 18 reflected 12 different sires. Whilst this is not uncommon, and the class was of excellent quality, but care with choice of sire must be exercised – remember, you have limited chances to breed with a bitch so careful selection is paramount. Predominately the kennels here with strong, producing bitch lines continually produce animals of similar and very good type, of note Andacht and Kuirau Kennels. For those smaller kennels with lower numbers care in selecting a sire of very good type to compliment and improve what you already have is a must.

### **Long Stock Coat Classes – J Pike**

The LSC exhibitors should be commended in all classes on their top presentation of their animals. Unfortunately the numbers of LSC's shown were particularly low and like the stock coat classes, of mixed type.

The animals exhibited were well within the required limits of size and in the main stood correct in front. The Long Stock Coat variety is certainly a work in progress and each time I have had the pleasure of judging them I must comment on the increase in quality.

### **\*Asterix von Hannes (Deu) a ED**

Age range: *Baby to Intermediate*

No of ANKC registered puppies: 68

HD/ED Control Scheme: *Insufficient numbers to date*

*The group of Asterix Hannes was very uniform in type with good height to length proportions of good substance. The eye colour of the group were medium to dark. The progeny displayed overall a good length of upper arm which was slightly steep in lay. Very good hindquarter which was not too deep. Hocks could be slightly firmer. Balanced in movement.*

### **\*Pepe von der Zenteiche (Gmy) a ED**

Age range: *Baby to Minor*

No of ANKC registered puppies: 36

HD/ED Control Scheme: *Insufficient numbers to date*

*The group of Pepe von der Zenteiche presented a group of 2 males and 6 females of very young age. The group was sire typical and of good substance and very good overall type. Excellent colour and pigment. The group displayed very good height of wither and very good proportions with very good balance for their young age. Most displayed very good hindquarter angulations with the exception of one which was very deep. Dark eyes and dark masking. The strength of underjaw should be better. The length of upper arm could be longer and better angled. Underlines were good with very good toplines and length of hocks. Good firm ligamentation for their age. In movement the wither was carried well with good drive however the reach should be more expansive.*

### **\* Ch. Ustinov vom Romerland (Deu) a ED**

Age range: *Baby to Puppy*

No of ANKC registered puppies: 83

HD/ED Control Scheme: *Insufficient numbers to date*

*The group of Ustinov vom Romerland presented a group of 17 very young animals which were slightly mixed in type. Some were slightly long in proportions where the withers could be a little higher. The length of upper arms were slightly short, slight steep. Very good pigment with very good masking, good underlines and good substance. The males for their age displayed good masculinity. They stepped slightly narrow behind. In movement the wither should be carried a little higher with good drive and the reach could be more expansive.*

*The group is of a very young age where you would expect much more development to come but is of overall good quality. This dog had two class winners on the weekend one in the*

*Puppy Bitch Long Stock Coat class and Baby Puppy Dog class.*

**\* Ch. Schneeberg Fire Storm ET A Z**

Age range: *Intermediate and Open*

No of ANKC registered puppies: *102*

HD/ED Control Scheme: *Progeny through scheme 28; HD mean score of 7.6; ED Results 21 animals with Normal elbows, 6 with Grade 1 and 1 with Grade II.*

*The group of Schneeberg Fire Storm containing 5 bitches, 4 breed surveyed, from 4 dams, were sire typical, very good type and displayed very good toplines, with good length of underchest. The croups were slightly short but well laid. Dark eyes. The upperarms could be slightly longer and better angled. Very good firmness of hock joints which were of good length. Very good willingness to run where the reach could be a little free-er and the wither carried a little higher in movement. This dog has excellent hip and elbow statistics for the number of progeny that have gone through the scheme.*

**\* Toby von der Plassenburg (Deu) a ED**

Age range: *Minor to Intermediate*

No of ANKC registered puppies: *243*

HD/ED Control Scheme: *Progeny through scheme 23; HD mean score of 6.1; ED Results 21 animals with Normal elbows and 2 with Grade 1.*

*The group of Toby Plassenburg presented a sire typical group of 3 males and 6 females of very good type. His progeny displays good length of running bones, very good proportions and generally very good in hindquarter angulation with a couple bordering on slightly deep. Dark eyes. Very good masking and very good top and underlines. The underchests are of good length. Some display slightly long hocks. The progeny displays a great willingness to run, with very good toplines, powerful drive where, in some cases the forehand reach should be just a little more expansive. This dog has excellent hip and elbow statics with the oldest progeny soon to move into the open class.*

**Breeders Group – Andacht Kennels**

The group comprised 2 males and 3 females from 5 different sires and 4 different dams. This kennel must be congratulated for putting together a very good group with a high degree of difficulty and of very good type.

The group displayed very good colour, pigment and type. Very good top and underlines and very balanced in proportions with very balanced hind quarter angulations. The upper arms could be longer and better angled. The group held their withers well. They all displayed dark eyes and were of good substance. The hocks were slightly close and the elbows connection good. In movement very balanced ground coverage where perhaps the forehand reach could be just a little better.
