Minor Puppy Bitch (LSC)

3 lovely youngsters in this class, 2 B/G and 1 sable.

Shayler/Smith's Crytara Red Sox (*Conbhairen Lauser (UK) x *Kelinpark Icing On The Cake) gained 1st position, a well-constructed female of medium size, strong with good angles both fore and aft, moved very well and co-ordinated for her age, she was followed into 2nd position by her litter mate Hornick's Crytara Silk Sox, very much peas in a pod, her sister just out moved her slightly but both kept a lovely overline in movement. Kelly's Derharv Generation Gold (*Siefen Jack In The Box x *Derharv Pure Blonde) made 3rd place, a lovely sable, slightly stronger in build than the first two and shown in excellent condition, not quite as free in movement but still very promising.

Puppy Bitch (LSC)

1 Bevk & Koerber's Gabmalu Cinda (*Vablo v Osterberger Land (Deu) x Sundaneka Tequila Sunrise (IID)) stood alone in this class, same sire at the 1st 2 in previous class, he is obviously making his mark here in Australia. 11 month old feminine bitch of good size and strength. Stood showing a good topline with good length and lay of the croup. Upper arm a little steep. Slightly close viewed at front and a touch wide behind. A female that moved freely although at times tended to dig in too much which spoilt the overall picture. She will no doubt get it all together perfectly with time and is worthy of a VP grading.

Junior Bitch (LSC)

1 Murray's Kuirau Kristen (*Ch Kuirau Casey Stoner x Kuirau Xquissite Lady) 59 cm 13 months old of very good colour and pigmentation. B/G Very good head and alert expression, dark eye. Medium size and medium strength. High wither, firm back, good length and angle of the croup, lovely clean overline. Good middle piece. Stood correct on straight bones at front, correct at rear. Moved straight away and back. Showed good movement in the gait but at time could have put a touch more effort into the hindthrust. Won the class on her overall balance. SG

2 Kada's Jaknell Ruby Tuesday (*Gerry v Schacher (Deu) x Jaknell Rolling Stone) 58.5cm 12 months old of medium size and strength. Very feminine head, alert and lively at all times. Shown in excellent condition. Another who showed good length to height proportions. Good topline although the croup is a little steep. Tended to stand a little narrow in front but correct in movement, stood ok behind but in movement showed looseness in her slightly long hocks, firmness should come with age. SG

1 Anderson's Ch Scherzar Uptown Girl (*Ch Toujour Beau Thunderstorm x Scherzar Ramblin Rose) 58cm 18 months old medium size strong very well pigmented female. Very alert and lively expression on a feminine head, dark eye, good ear carriage. Normal wither, firm back well angled croup. Good angles of the hindquarters. Good underchest development. The upper arm could be yet more sloping. Stood correct both ways but was a little narrow moving away, ok coming to. Showed slight looseness over back in the gait, elbows yet to close. In first place was Shayler, Cathie & Lynch's Freinhof Irok (*Sensen Mann Yokon (Fin) x *Pedra Degli Achei (Ity)) quite a strong baby of good size, full of substance and masculinity, good proportions, lovely temperament. Followed into 2nd place was Jones, Parsons and Toretto's Hillmagic Platinum Nokosi, (*Ch Hillmagic Purple Haze x Ch Hillmagic Golden Calypso) not quite as masculine and of slightly longer proportions but overall very well balanced. 2 very good babies that I was happy to grade VP.

Although shown not in full coat, this did in no way detract from the overall quality.

2 Petreski's Lozani Clara (*Juwika Destroyer (Deu) x *Bronacre Chiquita) 11 month old beautiful medium size and strength puppy. Very alert and lively expression on a very good head. Very well balanced with a good topline and very good angles of both fore and rear. She stood correct and moved correct both ways. At times she was better in stance than when gaiting. Baby Dog

1 Ballantyne's Kantenna Alejandro (*Misteishah Ferdinand x *Kantenna Mystique) 4 months old, richly pigmented black and gold baby pup, full of type and substance. Puppy Dog

1 Lynch, Cathie & Knuckey's Freinhof Hannibal (*Gerry v Schacher (Gmy) x *Pedra Degli Achei (Ity)) 11 months Big strong substantial male of very good type. Not quite as strongly coloured as litter mate but a good rich colour all the same. Very good strong masculine head. Normal wither, firm back, correct croup. Very strong hindquarters that are well angulated. Good middlepiece and very good forequarters. Stands correct in front, a little hocky behind. Moved correct coming to, a little loose away. Like his litter mate he moved effortlessly with a ground covering gait exhibiting excellent fore reach and thrust from the rear. The ring was too small for him today, he needs a larger ring to show off his expansive movement. The 2 areas that concerned me however, were his height and the length of his hocks. If he grows no more and firms up with age, (both highly probable) this dog will no doubt out gait all in the bigger rings and gain his title. He has everything there to enable him to do so and is another one to watch in the future. VP

2 McGinty's Freinhof Hasta La Vista Baby (*Gerry v Schacher (Gmy) x *Pedra Degli Achei (Ity)) (Litter mate to 1st on the pegs) 11 months black and gold of medium size and strength. High wither, firm back good length and lay of the croup. Good hindquarter angulation, good underchest, very good

Intermediate Dog

1 Murray's Kuirau Ivan Lendl (*Xaro vd Plassenburg x *Ch Kuirau Takiera) 65cm 2.5 year old top size, medium strong male, black and gold. To be hyper critical the skull could be broader and the ears are a tad on the small size. Normal wither, firm back the croup is of good length but could be better angled. Good strong hindquarters with strong hocks. Good forequarters and chest development. Stood and moved correct both ways. Moved with very good reach and drive maintaining topline. SG

A compact dog of good type shown in excellent condition. Strong masculine head and expression. Firm and dry. A little short in neck. He showed a very good overline with good angles fore and aft, Good underline. Standing viewing from the front he is a tad narrow in the forechest, stood correct at rear. Moved a little close behind, coming to elbows yet to close.

At first in the gait he was so busy that he was short and high stepping and at times not co-ordinated in his hind action, yes a bigger ring would certainly have helped him as he was full of energy and enthusiasm and he was handled expertly but it did take time for him to settle. Once he did he exhibited very good movement with very good forereach and effective drive from the rear. V

3 Eaton's Ch Ambala Arragon Prince (*Xaro vd Plassenburg x Ambala Funky Miss) 64.5 cm 2 years 8 months old black and gold male of over medium size, somewhat deep in proportions. Medium strong. 4 Gregor's Ch Kelinpark Helluva Rebel (*Indio di Casa Nobili (Ity) x *Kelinpark Sinnamon) 65cm 3 years 3 months old black and gold top size male of very good type. Good bone and substance. Very masculine head with good dark eye. A little flat over the wither giving a slight roach in the backline, the croup was well laid if a tad short. Good angulations of the hindquarters. Very good chest development and forequarters. Stood correct at front, at rear a little close, moved ok coming to. He showed very good movement with very good drive from the rear but the front reach was somewhat restricted. Another V male.
