

## **Foreword from the judge Sue Belfield (Kassieger)**

My thanks to the members and committee for the invitation to judge at this Premier Clubs Championship Show, making my first trip to Australia extra special, which initially should have happened in Oct 2020 until Covid struck delaying the visit for a further 2yrs.

The hospitality shown to my niece Michele and myself was exceptional, this dedicated, hard working committee went above and beyond what we could ever have expected to make us feel welcome. Special thanks to Jacqueline Fabian who went out of her way to transport us around and to Kurt Morton & Jess Kada who arranged our Friday Wildlife Tour, provided super company at the venues booked for the lovely meals over the weekend as well as our weekend transport. Grateful thanks also to Fay Stokes my excellent stenographer on the day.

It was a shame the dry start to the day turned into a torrential rain storm from lunchtime onwards, causing treacherous conditions for handlers and dogs moving around the ring. Thankfully no-one was hurt and being hardy folk we Shepherdites just got on with the show. At this time I want to state my appreciation to all handlers & exhibitors for adhering to my request of an individual lap with no attraction, this enables me to assess the natural lines of each exhibit itself on the move as opposed to the experienced prowess of handler & attracter and for accepting my decisions with courtesy and goodwill.

Finally I leave with these last thoughts:- the GSD is a working breed so you must have more confidence in your dogs ability to work the ring without the need for excessive attraction. With correct training it should not be necessary for owners to have to run around the ring in order to keep the dogs interest on the move. Over attraction during the individual had many fidgeting and unsettled giving the impression of a hyper or nervous disposition (neither of which is desirable). Over attraction during movement can cause extensive pulling into the lead which in turn can restrict forward reach or even cause the dog to hackney. Hence the reason for my 'No attraction' lap as my job as a judge is to neither promote nor penalise a dog in movement that has been unnaturally derived from over attraction.

Here's one of my training tips to share with you. From an early age I find a game of hide and seek with your dog produces the best ring performance results without the need for me to run around the ring and for an owner without an entourage of helpers. Owner hides and dog moves around seeking, the reward comes at the end of the class when dog finally finds, gets a big fuss and to play ball with his/her owner.

Wishing the club, all of its members along with your dogs the very best of success in the future. Whatever the results, enjoy your dogs. SB.
