

NÉSTOR DESCALZI

Owner of the breeding "VON DIETRICH" partner of POA since 1987 and judge of POA since 2008 currently in the category "breeding judge" from my beginnings, lover of the German Shepherd breed, with a lot of enthusiasm and seriousness I have been in different positions within the activity both in the executive and in the breed affairs / technical area. This passion is that led me to obtain the status of breed judge of POA

I was fortunate to travel all over South America and Europe (Germany) competing with my breeding. My aim has always been dedicated to improve the breed, promoting it, and with typical imperfections of an amateur and year after year improving my breeding.

Several examples obtaining important results have been -
Quanita von Dietrich SG1 Argentine Sieger 2017 (females 6-9 months) and in September of that same year within the first group in category females of 12-18 months at German BSZS among 270 copies. This and other great results saw me in the year 2022 obtain the recognition as the best breeder in Argentina. - Ulkan von Dietrich (VA3 2018-VA1 2019 and va1 2022 Argentine Sieger, he also obtained the title of va1 2019 Bolivia - VA1 2019 Colombia and VA1 2019 Uruguay) - Vinka von Dietrich (VA1 2022 Sieger Argentino) Venus von Dietrich (VA3 2022 and VA2 2023 Argentine Sieger) -Diva von Dietrich (SG6 females 18-24 months Argentine Sieger) best breeder in

Argentina 2022 as well as relevant results in exhibitions, and other examples of my breeding.

I became a regional judge and breed GSD judge in 2008. I have been given the opportunity and pleasure to judge in my country and a number of times in other countries in south America: Uruguay, Chile, Colombia, Brazil. With great pride I judged in the Argentine 2019 Sieger, long stock coat classes at the 2019 Argentina Seiger show male classes of 9-12 months at the 2022 Argentina Seiger Show.

In furthering my knowledge of the breed, I have traveled to a number of the Sieger shows on a regular basis: Germany, Uruguay, Bolivia, Chile, Brazil, Colombia, and Spain. These experiences are most valuable as one can share valuable discussions with the most dedicated breeders and judges in the world. As an example my meetings with Walter and Herman Martin definitely saw my passion for the GSD further fueled. One is continually learning from others, and this in itself drives the passion even harder to succeed as a breeder and judge.
